

Micro Update is an expanding business and we are always looking for partners that add value to our business. Typically we are looking for the following:

- Suppliers of products that complement our existing products and services
- Companies that need extra resources to help them complete web related projects ontime and to budget
- Individuals who would like to join our team - please feel free to email your C.V. to Jonathan at any time for an informal chat

We believe in helping the community and contributing back to the OpenSource community that has helped our business so much over the years. We will always promote products and services that are opensource or free for our customers. We try to provide our customers with best of breed OpenSource solutions in order to minimise their costs - all our customers pay for is our time and expertise.
