

Quality Professional Website Design

Modern, fresh and maintainable **business websites**:

- Great Design!
- [Social networking](#) Integration
- Maintainable by the Customer (CMS)
- Search Engine Optimised (SEO)
- A Comprehensive Web Hosting Package
- [Mobile phone integration](#)
- ... and many other elements in order to make sure your customers can find you.

There are now millions of business websites and we understand that **your site has to be unique and different**

Micro Update is based in **Newton Abbot, Devon**. We [guarantee](#) to make sure that your web presence reflects your personality as a business. That's why we like local businesses in Devon - people we can talk to, face to face, and find out exactly what YOU need.

Do you have a QR Scanner on your phone? If so scan our code to get in touch!

All our websites are SEO optimised for [search engine results](#). In our business the customer is always king! We discuss your requirements so that there are no hidden surprises.

We will keep all our conversations **free from jargon**. Our websites range from simple one page sites to multi-language, multi-location, **eCommerce**, mobile enabled websites to drive your business forward.

Your competition will be moving forward with website design - and so should you. It could not be a better time to either create your complete web presence or re-visit your existing web strategy.

Affordability

Our processes allow us to offer you an affordable price with skilled staff. Prices start from as little as £250 for a professional website with no hidden extras. There are no hidden costs for editing images or changing layouts - the price quoted is the final price you will pay - no more.

OUR PRICES START AT [£500](#) FOR A FULL BUSINESS WEBSITE

A face behind the business

Wherever possible we will always meet with you, and discuss your business and your requirements. You will not be part of a template system that churns out websites; each of our websites is customised for each client taking into account the unique nature of your business.

Content Management Systems

All our website solutions come with a CMS (Content Management System) included as standard. This mean you do not have to pay us everytime you want to update your website or add images and pages. The content of your website it totally under your control. If you would prefer us to manage the content and publishing process for you we can offer this service as well.

OUR WEBSITES COME WITH **CONTENT MANAGEMENT** BUILT IN
